

# **IMSWorkX Enters Into Support Agreement with PT**

## **Global NGN Solution Provider Selects IMSWorkX Software Support and Consultancy Services**

January xx, 2013 - Rochester, NY, USA – IMSWorkX, Inc., an innovative technology company delivering leading edge Service Delivery Platforms, Service Creation Environments, and applications for telecoms and M2M applications, backed by comprehensive application hosting and support services, today announced that it has entered into an agreement to provide software support and consultancy services to PT (Performance Technologies, Inc.)

“We are honored that PT has chosen IMSWorkX to deliver 24x7 software support and software maintenance for its Xpress Application Server carrier-grade product line”, announced Keith Abbott, IMSWorkX VP Global Sales Operations. “This recognizes the strengths and capabilities of our team in delivering outstanding service in a highly demanding, revenue dependent service provider environment”.

Shannon Chevier, IMSWorkX President & CEO, acknowledged this by adding, “Choosing the correct Service Delivery Platform and application suite is just the first step in a successful deployment. Protecting the resulting revenue generating solution through high quality services, support, and maintenance is vital to sustaining a successful technology partnership. In this context we welcome the confidence PT has placed on IMSWorkX to deliver these advanced services”.

IMSWorkX prides itself in striving to provide best practice services in support of all software offerings. This provides our customers the confidence to deploy mission critical systems in the knowledge that timely and effective support is committed.
